Office of Access and Functional Needs (OAFN)

- OAFN continues to coordinate with community-based organizations, stakeholders, and partners to provide situational awareness and determine unmet needs associated with the pandemic.

Joint Information Center (JIC)

- CDPH released the most recent statistics on COVID-19 on January 4, 2022. This information may be found on the CDPH OPA News Release webpage here:
<https://www.cdph.ca.gov/Programs/OPA/Pages/News-Releases-2021.aspx>
- CDPH received and responded to multiple media inquiries on COVID-19. The topics include:
 - Different types of masks and proper use.
 - Fake vaccination testing sites.
 - COVID outbreaks at Napa State and VA hospitals.
 - When Delta variant was first detected in California.
 - Percentage of hospitalizations with Omicron versus Delta.
 - Shortage of at-home tests.
 - COVID-19 cases by city.
 - Rising test positivity rate.
 - Pediatric hospitalizations.
 - Impact of COVID on children.
 - Number of people vaccinated under various state Public Health Orders and requirements.
 - Restrictions on New Year's celebrations.
 - Omicron percentage update and winter surge.
 - County not reporting data during holidays.
 - New CDC quarantine guidance.
 - MIS-C data.
 - CA Notify.
 - Reporting at-home test results.
 - Pfizer pill distribution
 - Testing site investigations.
 - Case rate data.
 - Omicron variant wastewater testing.

Situation Report - FOR OFFICIAL USE ONLY

Coronavirus Disease 2019 (COVID-19)

Report Date:

1/4/2022

Report Time:

1700

- Indoor gathering and holiday celebration guidance.
- Return to school testing and quarantine guidance.
- Vaccination data for residents and staff at skilled nursing facilities.
- Monoclonal antibody treatment availability.
- Distribution of at-home test kits for students and school districts.
- Testing site investigations.
- Testing costs.
- Isolation and quarantine guidance.
- Quarantine guidance for students.
- Variant data by date in San Diego.
- COVID samples sequenced in San Diego.
- Omicron case data.
- What's behind the rise in hospitalizations in children.
- Winter surge.
- Unauthorized testing sites.
- COVID hospitalization data.
- COVID-19 oral antiviral access.
- Investigation into "Center for Covid Control" testing sites in Sacramento.
- Number of COVID testing sites in California.
- Vaccination requirement for people working in nursing homes.
- COVID-19 samples sequenced in San Diego County by date and variant.
- School quarantine and isolation guidance.
- State-run COVID testing site data.
- Vaccination data.
- Increasing testing turnaround times.
- Health care worker data.
- State Laboratory contracts.
- Testing availability.
- Testing site licensing.

Logistics/Commodity Movement Task Force (ESF 7)

Warehouse/OES:

- **Missions:**
 - Complete the transferring of excess CDPH items to temporarily stay at Dixon Warehouse
 - 3mL Luer-Lock Syringes and 25G x 5/8" Safety Needles to MAB Infusion Centers
 - 51 Pallets of COVID-19 Test Kits (from MN) to San Bruno
 - 10 Pallets from CDPH to Placer County
 - 26 Pallets of Test Kits to Sunnyvale
- **Other updates:**
- Dixon Warehouse Inventories migrated to NEXGEN
 - CMS Kit Fill detail corrections and UPS Spreadsheet provided to NEXGEN on 12/17
 - Continuing concurrence detailing of migrated UPS Inventory for remigration, 95% complete
 - Issues are being logged in NEXGEN UAT Teams
 - Continuing to streamline the Biomedical and CMS Prefill spreadsheets for January 15th migration, 70% complete

DGS:

- **M37724 T27265 – PPE Storage Warehouse** – DSS request extension to June 30, 2022 – Due to funding being discontinued as of March 20, 2022 this contract will be turned over to CDPH for administration.

Situation Report - FOR OFFICIAL USE ONLY

Coronavirus Disease 2019 (COVID-19)

Report Date:

1/4/2022

Report Time:

1700

- [M13247 T58220](#) – **Refrigerator Box Trucks** at CDPH Warehouse – CDPH confirmed (4) trucks needed on site indefinite due to the COVID surge. Contract for task ending – DGS turned this over to CDPH for administration.

California Department of Public Health (CDPH)

- MHCC received a total of [29,210 \(+812\)](#) resource requests and a total of [43,665 \(+159\)](#) inquiries from public citizens, local health jurisdictions, and healthcare facilities. The number of inquiries listed is a total of the Maximus Call Center and MHCC inquiry counts combined.
- CHCQ received [17](#) facility Program Flex requests.
- CHCQ received [2](#) Salesforce requests.
- CHCQ continues to hold the All Provider, Local Health Department, and Infection Control calls each week.

Guidance

- The following guidances have been updated and/or posted to the CDPH webpage:
 - [On December 30, 2021 CDPH published "Guidance for Local Health Jurisdictions on Isolation and Quarantine of the General Public"](#). This guidance:
 - Provides updated isolation and quarantine recommendations for the general public, in alignment with timeframe recommendations from the CDC.
 - Recommends additional mitigation measures, including testing to exit isolation and quarantine and improved masking.
 - Clarifies that fully-vaccinated persons who are booster-eligible, but have not yet received their booster dose are now recommended to quarantine per updated CDC recommendations.
 - Includes Appendix to determine when a person is "booster-eligible".
 - [On December 30, 2021 CDPH published "Guidance for use of Over-the-counter tests for Local Health Jurisdictions"](#). This guidance is for the use and reporting of self-administered tests.
 - [On December 31, 2021 CDPH published CAHAN All Facilities Letter \(AFL 21-08.6\) "Guidance on Quarantine for Health Care Personnel Exposed to SARS-CoV-2 and Return to Work for HCP with COVID-19"](#). This AFL supersedes AFL 21-08.5. This AFL revision incorporates updated CDC guidance on Interim Guidance for Managing

Situation Report - FOR OFFICIAL USE ONLY

Coronavirus Disease 2019 (COVID-19)

Report Date:

1/4/2022

Report Time:

1700

Healthcare Personnel with SARS-CoV-2 Infection or Exposure to SARS-CoV-2 and Strategies to Mitigate Healthcare Personnel Staffing Shortages. Pursuant to Welfare and Institutions Code section 14126.033 a skilled nursing facility's receipt of the annual increase in the weighted average Medi-Cal reimbursement rate may be conditioned on the facility's good faith compliance with CDPH AFLs related to the COVID-19 Public Health Emergency, as a result the recommendations included in this AFL are requirements for skilled nursing facilities.

- On December 31, 2021 CDPH released a CAHAN Disease Notification - CDC Health Alert Network Health Advisory 461: "Using Therapeutics to Prevent and Treat COVID-19". The SARS-CoV-2 Omicron variant has quickly become the dominant variant of concern in the United States and is present in all 50 states. The CDC recommends that eligible individuals should get all vaccines and booster shots as the best preventive measure available against severe disease, hospitalizations, and death due to COVID-19. Therapeutics are also available for preventing and treating COVID-19 in specific at-risk populations. These therapeutics differ in efficacy, route of administration, risk profile, and whether they are authorized by the U.S FDA for adults only or adults and certain pediatric populations. Some therapeutics are in short supply, but availability is expected to increase in the coming months. This Health Alert Network Health Advisory serves to familiarize healthcare providers with available therapeutics, understand how and when to prescribe and prioritize them, and recognize contraindications.
- On December 31, 2021 CDPH published an Amendment to the August 26, 2021 State Public Health Officer Order for Visitation. This amendment:
 - Requires booster dose and negative test for visitors of Skilled Nursing Facilities, Intermediate Care Facilities and Residential Care Facilities (licensed by California Department of Social Services) – this ensures we protect that most vulnerable of populations.
 - Current visitation requirements will continue to apply for hospitals.
 - Aligns with current Centers for Medicare and Medicaid Services (CMS) requirements to allow for visitation for individuals who cannot leave their room for visitation.
 - Goes into effect January 7, 2022 and is effective through February 7, 2022.
 - Allows an allowance for visitors who visit for five or more consecutive days to only require testing every third day.
- On December 31, 2021 CDPH published an Amendment to Mega Events. This amendment:
 - Lowers the thresholds to 500 for Indoor Mega Events and to 5000 for Outdoor Mega Events. Maintains that for Places of Worship, these requirements remain recommendations.
 - Asks venues to be in full compliance by not later than January 15, 2022.
- On January 3, 2022 CDPH published "Information Sheet for Over-the-Counter Test Kits for SARS-COV-2". This sheet provides summary tables comparing various OTC testing kits

Emergency Medical Services Authority (EMSA)

- NSTR

Department of Health Care Services (DHCS)

- On January 4, 2022: Update for NewsFlash entitled "Reimbursement of COVID-19 Vaccine and Monoclonal Antibody Administration for Medical Providers" pending approval. Publish estimate is January 05, 2022.

County Reports

Contra Costa

- On December 28, 2021 Contra Costa Health Officer published a health order which rescinds specified exceptions to Health Officer Order No. HOCVID1951, the face coverings order applicable in public indoor spaces, that allowed fully vaccinated public speakers and performers, and fully vaccinated groups of 100 or fewer persons, to remove their face coverings under controlled conditions, effective at 12:01 a.m. on December 29, 2021.
- All people in Contra Costa, regardless of vaccination status, must wear face coverings in indoor public settings until further notice. Public settings include but are not limited to: business offices, retail stores, restaurants, gyms and fitness centers, theaters, family entertainment centers, meeting rooms, State and local government facilities where services are provided to the public.

Sierra

- Extended Case Investigation and Contact Tracing with Public Health Institutes through March 2022.

San Francisco

- Hospitals report increases in Omnicron variant and an increased demand for monoclonal antibodies and other therapeutics.
- On December 31, 2021 based on CDC recommendations that were adopted by CDPH, San Francisco Department of Public Health updated recommendations for Isolation and Quarantine to reduce the isolation period after an individual is infected with COVID-19 from 10 to 5 days. To leave isolation, the individual must test negative on day 5 and have no symptoms or meet other requirements. Individuals must wear masks while around others, indoors and outdoors, for a total of 10 days.
- On December 30, 2021 the Emergency Operations Center and all its sections were deactivated. The final Situation Report for the COVID-19 Emergency Operations Center activation has been sent to the MHCC.
